

A. Smith et al.
Preliminary Amendment
Divisional Application

REMARKS

This Preliminary Amendment is directed to the accompanying divisional application of pending U.S. Application No. 10/020,569 filed December 7, 2001 (the "parent '569 application"). In an Office communication dated June 30, 2003 in the parent '569 application, the pending claims were subject to restriction and/or election. Restriction was required between Group I comprising Claims 1-27; Group II comprising Claims 28-29; and Group III comprising Claims 30-51. Claims 1-27 were elected, and Claims 28-51 were withdrawn from further consideration. This divisional application is directed to taking up the non-elected claims (Claims 28-51) for further prosecution.

This Preliminary Amendment is intended to result in a set of pending claims that correspond to the claims 28-51 pending in the parent '569 application. Thus, the claim amendments are to provide claims in this application that correspond to claims that were originally filed in the parent case but were withdrawn and not allowed. The numbering of the claims from the parent '569 application are preserved in this application.

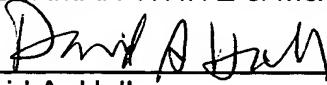

Entry of this Preliminary Amendment is respectfully requested. The present application discloses and claims only subject matter disclosed in the parent application. It is submitted that the claims pending in this application after entry of this Preliminary Amendment are in condition for allowance.
